#### FOUNDER VIGILAI

In the pharmaceutical industry, due diligence is paramount, involving cross-referencing databases to authenticate licenses, VAT numbers, and addresses. Verified data yields official records, but manual methods lead to delays and errors. Enter Vigil AI: importing global and local data, rigorously comparing information against customer/supplier details, even conducting Google-based investigations. It offers immersive 3D street views and streamlines document creation and signing. VigilAI's impact reaches beyond due diligence, heralding automated quality management systems. Embrace this transformative era.
